The protest: Policing in this country suffered
a severe blow to its reputation
& prestige. Not only did it appear weak &
unprepared but, just as critically, its response
to a largely white crowd seemed

2022-02-23

inappropriately differential. This will certainly come into play in any future protests, whatever their focus, & will mean extreme scrutiny on any law enforcement response. Given the role of Ottawa & the parliamentary precinct as a focus of protest, this is likely to happen there before it happens anywhere else.

It is critical that the L.E. & security community increase its collective understanding of the threat & risk associated w/ right-wing extremism in this country. This will have to be coupled w/ effective threat mitigation strategies that are appropriate to a unique & rapidly evolving threat environment.

We can't lose sight of the fact that all this is happening in a tense & rapidly changing geopolitical environment in which long-standing-like Islamist extremism - continue to exist & to represent substantial levels of threats.

uninvolved citizens as possible.

Its purpose is to give a voice to a whole range of alt. right actors, to display symbols of hatred & viciousness (that have nothing to do w/ the so-called issue), & to make demands for the arrest, trial & even execution of the PM & his cabinet. The FC wants to prove conclusively that the mob is more powerful than the government; more powerful, even, than the law.
